

TRANSFER EUROPEAN CONFERENCE

24 January 2023

Venue: National Museum in Belgrade
Trg Republike 1a
Belgrade, Serbia

The conference will also be open on streaming

“A Sustainable Development Model for Archaeological Parks”

Over 12 partner organisations from 6 different European countries come together to discuss difficulties, share best practices and present new methods and strategic tools for sustainable management of archaeological parks.

The conference will bring together organisations managing archaeological parks, public authorities, companies and higher education and research institutes which will provide a comprehensive analysis of the needs and challenges that determine an effective response to how sustainable management can be integrated into socio-economic and spatial plan policies.

Don't forget to register by the 15 January for **in-person** participation:

https://docs.google.com/forms/d/e/1FAIpQLSe6mzMF6bNYqN-yv-Xf_eG-rSi_kXpnteGwtn30xKa21TMmuw/viewform

and on the 23 January for **online** participation:

About TRANSFER:

The TRANSFER Project, co-financed by the European transnational programme ADRION (Interreg V-B Adriatic-Ionian Programme), promotes different levels of cooperation between countries situated in the Adriatic Ionian area. The TRANSFER project involves 12 partner organizations from six ADRION countries from Italy, Albania, Slovenia, Croatia, Greece, and Serbia.

The overall aim of the project is to develop, transfer and disseminate the Common Governance Model for archaeological parks enhancing the preservation and valorization of archaeological heritage within the Adrion area. Archaeological parks that have been used as case studies to implement and test the tailor-made model are: Urbs Salvia (Italy), Antigonea (Albania), Ptuj (Slovenia), Dodona (Greece), Omišalj and Šibenik (Croatia).

The final conference aims to present all key project results, experiences as well as strategic tools that have been created during the project implementation.
