**INTERNATIONAL, CULTURAL,
AND ACADEMIC MEETING OF
ENGINEERING STUDENTS**

ENGINEERING SOCIETY (ENSO)

Founded in 1914 at Robert College, Bogazici University Engineering Society (ENSO) is Turkey's **oldest and most established student** career club with 109 years of history. ENSO, which brings together hundreds of students from various departments and leading companies from different sectors on common ground, continues to make a difference in its field with its motto "**Think Big!**"

In addition to national events such as **Engineering Summits, Engineering Days,** and international events such as **ICAMES and Summer Course,** we have both increased the brand value of Bogazici University and provided an environment for people to add new perspectives to themselves and to start their future lives better equipped. Also these events, which contribute to increasing the **academic score of the university,** have a high academic scale.

ICAMES'23

WHAT IS ICAMES?

ICAMES (International, Cultural and Academic Meeting of Engineering Students) is an international engineering competition organized by Bogazici University Engineering Society (ENSO), which hosts more than **100 students from 6 continents and more than 20 countries every year.**

In addition to the project presentations, activities such as the "Cultural Night" about the participating countries, Bosphorus and Istanbul tours, Turkish Night, sports tournaments are included in the ICAMES program as well.

*****All the expenses of the participants are covered by the Organization Committee of ICAMES including food, accommodation, entertainment etc. except the travel**

ACADEMIC PROJECTS AND PRESENTATIONS

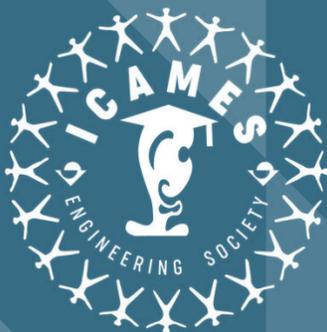

ICAMES 2024 will start on the 6th of May and end on 12th of May. This year's main concept is "**Enhancement of Renewable Energy Systems**". We expect from the participants to establish a connection between their projects and this topic.

Academic committee of ICAMES is formed by the **Dean of the Faculty of Engineering and an advisor from each Engineering Department of Bogazici University.**

Poster presentations of the participants will be held in the first day and project presentations will be open to 8 participants after an evaluation of poster presentations and will be face to face and the day after the poster presentations at Bogazici University. Juries will be able to evaluate submissions and score projects instantly. After 2 days of academic presentations, juries will announce the results of their evaluations.

The projects not selected to be presented, will be voted to be selected for The Community Award.

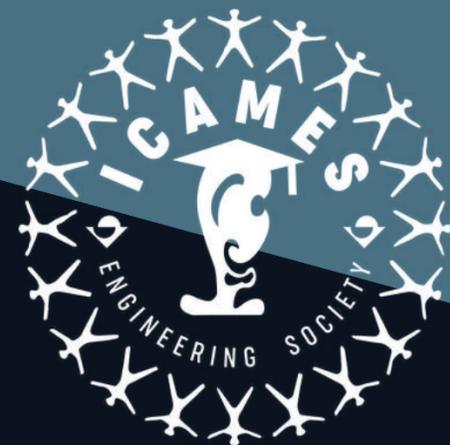

The Topic of ICAMES'24

This year's main concept is "**Enhancement of Renewable Energy Systems**".

Participants are expected to enhance different facets of renewable energy systems, encompassing structural, infrastructural, operational, organizational, and integrational dimensions. Your project is encouraged to concentrate on one or more subtopics associated with improvements or modifications, and it should be developed employing engineering methodologies throughout its construction.

The projects can incorporate one or more subtopics related to improvements/changes in Renewable Energy Systems and it doesn't need to be completely topic related, but is encouraged to make a connection with the concept. Participants must also approach the concept with engineering methods while constructing your project.

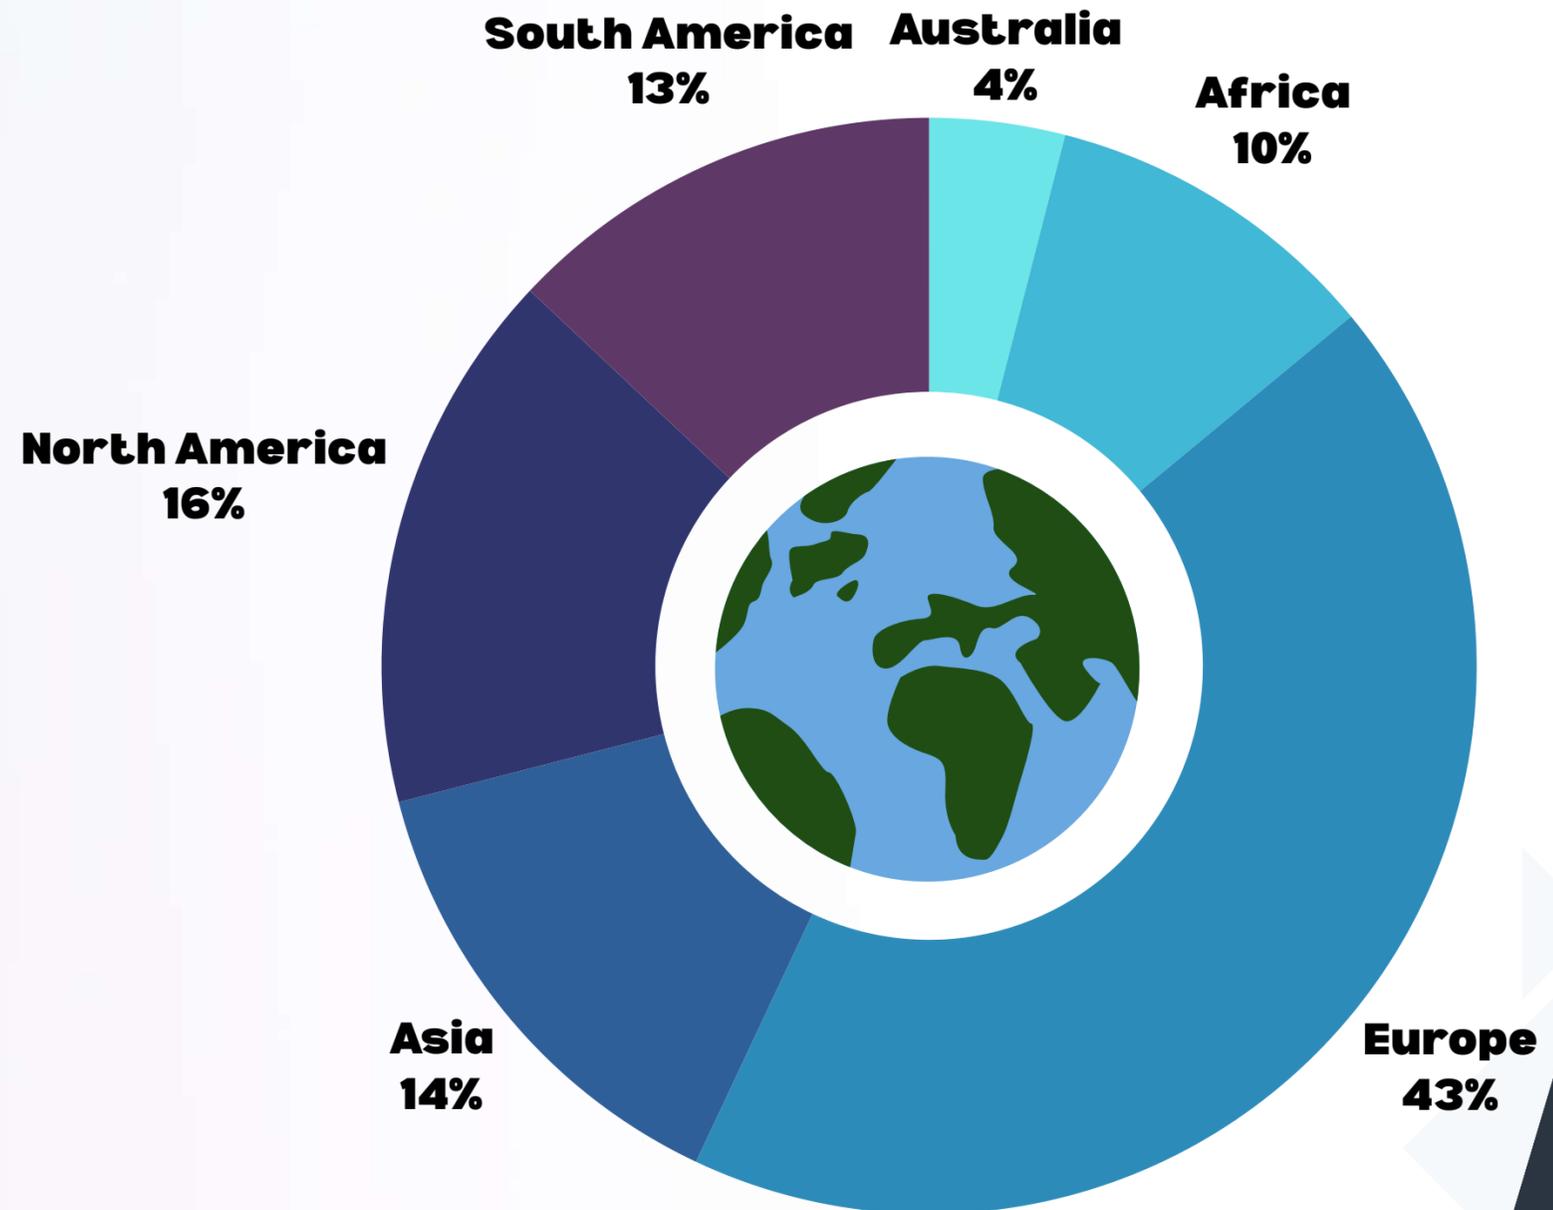

WHO CAN PARTICIPATE?

Competitors from all continents of the world can participate in ICAMES.

Approximately **70 competitors** take place with their theses and the participation of **10-15 advisors**.

The only prerequisite for a project to participate is that it should deal with engineering techniques and must be prepared by **undergraduate students**.

Students can participate by filling ICAMES application form on the www.icames.boun.edu.tr

PAST PARTICIPANTS

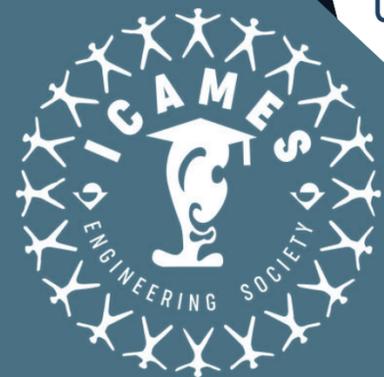

EVENTS THROUGHOUT THE WEEK

CAMPUS DAY

During Campus Day, which is like the Bogazici University Spring Festival, we spend a day with various activities at our university with ICAMES participants and Bogazici Students.

PRESENTATIONS AND AWARD CEREMONY

On presentation days, the participants present their projects to the engineering faculty of our university and the projects are evaluated by the professors.

The winners of ICAMES will be awarded in the Award Ceremony.

HISTORICAL PENINSULA TOUR

We aim to introduce the historical texture of Istanbul to foreign students by visiting the museums with the historical peninsula tour.

BOSPHORUS TOUR

In the Bosphorus Tour we sail along the Bosphorus Strait, which separates the European and Asian sides of the city. We aim to introduce the iconic sights of Istanbul in one night.
