Pablo Rodríguez-Vellando Fernández-Carvajal <[pablo.rodriquez-](mailto:pablo.rodriquez-vellando@udc.es)

vellando@udc.es>

Dear colleagues,

I hope you are doing well.

I am forwarding information from the University of A Coruña (Spain) regarding the launch of a new Erasmus Mundus Joint Master, **RESCO – Renewable Energy and Sustainable Construction**. The first application campaign will open in December 2025 for a start in September 2026.

RESCO is a two-year English-taught programme delivered by five European universities and covering:

Semester 1 – Budapest University of Technology and Economics (Hungary)

→ Fundamentals of civil and structural engineering

Semester 2 – University of A Coruña (Spain) & University of Minho (Portugal)

→ Sustainable construction, recycled materials, life-cycle assessment, energy-efficient building performance

Semester 3 – University of Le Havre Normandie & INSA Rouen Normandie (France)

→ Renewable energy technologies (solar, wind, marine), resource assessment, and energy production

Semester 4 – International internship / Master's thesis

Eligible profiles: Civil, Mechanical, Architectural or Energy Engineering, or related AEC disciplines

English requirement: B2 (IELTS, TOEFL, Cambridge, TOEIC, or equivalent)

Funding: Full Erasmus Mundus scholarships available

Application period: December 2025 – February 2026

I would be grateful if you could share this opportunity with your students or colleagues who may be interested.

If relevant, you may also forward this message to the appropriate departments or coordinators.

The application portal is currently being prepared. A second message will follow with the direct link once available.

Please find the programme brochure attached.

Best regards,

Dr. Pablo Rodríguez-Vellando

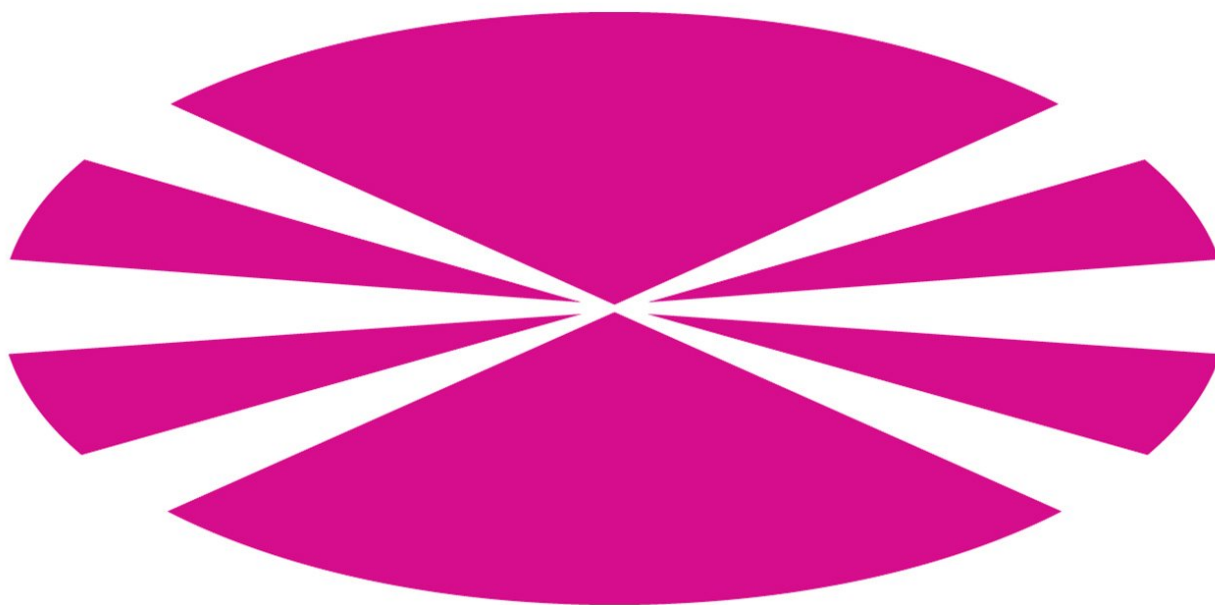

UDC RESCO Erasmus Mundus Coordinator
